

## **WORKING TOGETHER!**

School recognises that from time to time disruptions can occur in family life and it is the schools policy to help and support our children as much as we can through difficult or challenging times. We ask all our parents/carers to talk with us about any circumstance that may have an effect upon their children's school attendance/punctuality or learning and we will do all to offer advice or refer you to a relevant agency who may be able to assist you at that time. However the school has a legal responsibility to mark a school register twice a day and to report who has unauthorised absence or punctuality issues to the relevant authority. By working together we can ensure that school meets the Local and National Government targets and that the whole school community will benefit from a good school attendance record.

## **ATTEND TODAY, ACHIEVE TOMORROW**

Our target last year was 96% and we missed this by half a percent. This year we aim to achieve an ambitious 97%. We can do this together by working together and supporting each other.

This year our attendance rewards programme for individuals continues to be developed so more children are rewarded. Thank you to everyone who already supports our policies and procedures, we really do appreciate it.

Yours sincerely

Angela Bradford
